Hand Guns

We manufacture a complete line of hand guns for our legacy wire feeding systems and our current PA-10 heavy duty 4 roll wire feeder.

Model #	Description	Wire Feeder	Cable Length	Part Number
G700	Open Arc, Scratch Start	PA-1	10 ft.	3-7673-8-1
G701	Open Arc, Scratch Start	PA-1	15 ft.	3-7673-8-2
G728	Open Arc, Trigger Start	PA-1A, PA-6 & PA-10	10 ft.	3-7673-36-1
G728-15	Open Arc, Trigger Start	PA-1A, PA-6 & PA-10	15 ft.	3-7673-36-2
G730	Open Arc, Trigger Start	PA-1A, PA-6 & PA-10	10 ft.	3-7673-37-10
G740	Open Arc, Trigger Start	PA-1A, PA-6 & PA-10	15 ft.	3-7673-37-15
G800	Open Arc, Push Button Trigger Start	PA-10	10 ft. 15 ft	3-7678-9-10 3-7678-9-15

G730 & G740

The Mavrix G730 & G740 are designed for direct plug into the Mavrix 4 roll wire feeder. Provided in a 10 ft or 15 ft length, this heavy duty semiautomatic welding gun is ruggedly constructed with 500 amp capacity. With a brazed tip adapter and slightly curved nozzle the design insures good visibility for the operator.

G800

The G800 is available in a 10 ft. or 15 ft. version and has been designed to minimize operator exposure. The G800 has nearly 18" of exposed torch and a heat shield for an added layer of shelter from the heat.
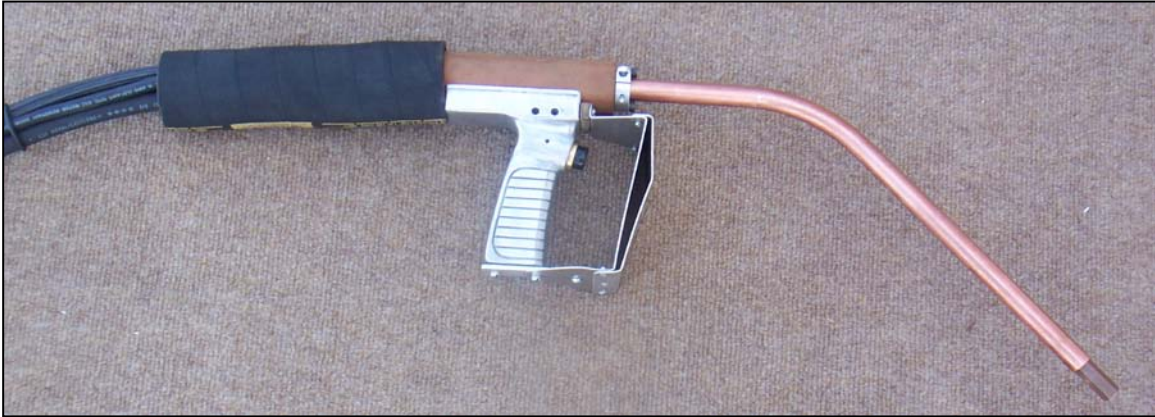

This gun assembly uses an electric push button trigger which requires little pressure to actuate. An alternate trigger circuit is available on the PA-10 that when used with this gun allows the operator a single touch of the trigger to start welding and a single touch to stop. Assembled ready to plug into the Mavrix PA-10 wire feeder and supplied with a lug for quick termination.
